

### **Spring Internship for "Family Pictures USA" TV Series**

Academy member and award-winning filmmaker & artist Thomas Allen Harris is looking for new team members to join his internship program! You will have the opportunity to work closely with a team of professional filmmakers and artists.

Our interns will get hands-on experience with all aspects of post-production of this upcoming new docu-series. Those looking to launch into careers as producers, editors (Adobe Premiere preferred), archival researchers, and/or digital media branding & marketing are strongly encouraged to apply.

The internship's main focus is Family Pictures USA, a traveling television series & transmedia project that explores neighborhoods & cities through the lens of the family photo album – offering a 'people's history' of underrepresented communities. Hosted by Mr. Harris, this public television series enlarges our understanding of history, our diversity, and our shared values.

Our interns will get hands-on training with opportunity to grow and seek mentorship and guidance from members of the production team regarding their personal/professional goals. You will also receive college credit and/or a letter of recommendation assuming satisfactory completion of the internship.

In addition to the TV series, you may be engaging with other projects that are currently in development, including documentaries, art exhibitions, etc.

We are looking for Interns who can commit 3-4 days a week minimum, 8 hours a day, between the hours of 11:30am-6:30pm, on a weekly schedule to be arranged with some flexibility. We are not open on weekends.

\*Qualifications:

\*\*Though we are accepting applicants looking to complete a Summer internship, preference will be given to applicants able to start with us ASAP. So please be sure to note your availability prominently in your materials\*\*

We do not require extensive experience from our Interns, but please let us know in your cover letter and resume of any qualifications or interest you have in these areas:

\* FILM EDITING IS A PLUS! \* documentary/TV \* good written communication and proofreading skills \* historical/archival research \* social media for films, organizations; marketing \* familiarity with Adobe Creative Suite, particularly Adobe Premiere Pro, Adobe Bridge and Photoshop \* attention to detail and ability to work independently \* demonstrated interest in related subject matter

Interested applicants should send their resume and cover letter to Production Assistant Sophia Huapaya at [sophia@familypicturesusa.com](mailto:sophia@familypicturesusa.com), along with your availability for the duration of the internship.
